## AMENDMENTS TO THE CLAIMS

- 1. 30 (Canceled)
- 31. (New) An autologous T cell vaccine comprising inactivated T cells that are reactive against one or more epitopes, wherein SEO ID NOS: 1-6 comprise the epitopes.
  - 32. (New) The vaccine of claim 1 wherein only SEO ID NOS: 1-6 comprise the epitopes.
- 33. (New) The vaccine of claim 1 wherein the vaccine consists essentially of T cells that are reactive against SEO ID NOS: 1-6.
- 34. (New, Withdrawn) A method of making the vaccine of claim 1 for the treatment of multiple sclerosis comprising:
  - incubating a sample comprising T cells isolated from a patient to be treated with the vaccine in the presence of one or more multiple sclerosis associated antigens or derivatives thereof;
    - (b) stimulating the cells of (b) with a mitogen; and
    - (c) inactivating the cells of (c),

wherein SEQ ID NOS: 1-6 comprise the antigens.

- 35. (New, Withdrawn) The method of claim 34 wherein one or more T cells of (b) are selected from the cells of (a) and wherein the T cells of (b) express one or more first markers selected from the group consisting of CD69, CD4, CD25, and HLA-DR and one or more second markers selected from the group consisting of IL-2, γIFN, TNFα, IL-10 and IL-13.
- (New, Withdrawn) The method of claim 34 wherein the multiple sclerosis associated antigens consist of SEO ID NOS: 1-6.
- 37. (New, Withdrawn) The method of claim 34 wherein the sample comprises peripheral blood T cells.
- 38. (New, Withdrawn) The method of claim 34 wherein the sample comprises cerebrospinal fluid T cells.
- (New, Withdrawn) The method of claim 34 wherein the inactivating of the cells in (c) is by irradiation or chemical treatment.
- 40. (New, Withdrawn) A method for treating multiple sclerosis comprising administering to a patient in need thereof the composition of claim 31.
- 41. (New, Withdrawn) A method for treating multiple sclerosis comprising administering to a patient in need thereof the composition of claim 32.
- 42. (New, Withdrawn) A method for treating multiple sclerosis comprising administering to a patient in need thereof the composition of claim 33.
